Mike Jin Joins CNSI as Senior Vice President, Chief Information Officer & Chief Information Security Officer

Rockville, MD – April 6, 2020 – CNSI, a leading business solutions provider in developing and delivering innovative health information technology solutions, announced today that technology leader Mike Jin has joined the company Senior Vice President, Chief Information Officer & Chief Information Security Officer. With extensive technology and security experience, Jin brings valuable knowledge and leadership to CNSI's executive team during an unprecedented time in the healthcare industry, and a continuously evolving information and data security landscape.

Jin comes to CNSI from Siemens Government Technologies (SGT) where he was the Chief Information Officer, leading a global team across multiple business units. Jin's team was responsible for a comprehensive suite of IT products and services including cloud-based solutions, digital industries, smart infrastructure, and cybersecurity initiatives. Prior to SGT, Jin led all IT operations and strategy at SOS International, LLC, where he oversaw significant global growth over several years focusing on cybersecurity operations and IT support for its customers.

"Mike has a proven track record of implementing technology and business strategies that support rapid growth while implementing appropriate standards, processes, and procedures that improve user experience," said Todd Stottlemyer, CEO, CNSI. "He consistently works to transform the role of IT from being resource provider to a solution partner. We're thrilled to have Mike on the CNSI team."

“I’m honored and excited to join such an experienced leadership team, said Mike Jin, SVP, CIO & CISO. “CNSI has a successful track record of leveraging the best technology to creatively deliver solutions that provide optimized and intuitive health, and cost benefits to millions of users. I look forward working with this team to become the nation’s most trusted and valued partner for healthcare technology solutions.”

About CNSI

CNSI delivers a broad range of health information technology enterprise solutions and customizable products to a diverse base of state and federal agencies. We align, build, and manage innovative, high-quality, cost-effective solutions that help customers achieve their mission, enhance business performance, reduce costs, and improve the health for over 50 million Americans. With locations throughout the U.S. and in India, CNSI employs a world-class team of technologists, healthcare subject-matter experts and program managers, all of

whom have experience with large scale mission-critical information technology implementations. CNSI’s website is: http://www.cns-inc.com.
